# Three in one, one of a kind

Introducing the Xerox WorkCentre C2424 colour multifunction system. A one-of-a-kind business solution offering printing, copying and scanning – plus, superb solid ink colour output – all in one affordable device. No other multifunction system delivers such a value-packed combination of performance, versatility and ease of use.

So, look no further busy workgroups – this top performer is ready for business.

# The next **big thing** in

*Solid ink colour is stunning.  
Images jump off the page!*

## Unbelievable functionality at a great price

**High performance tools. Fast output. Vivid solid ink colour. All in an incredibly affordable package.**

- Built fast to increase your productivity. Full-page colour at 24 ppm and 6 seconds until the first print out.
- Three-in-one value. Advanced printing, copying and scanning seamlessly integrated into one device.
- Advanced efficiency features. Multi-tasking enables you to take on two jobs at once – so if you're printing, you can still scan. Plus the Intelligent Ready feature learns your printing habits and warms up the system when you're most likely to use it.
- You don't pay extra for time-saving features such as automatic two-sided printing, collation, booklet printing, save/secure/proof print and extended font storage. These features come as standard.

# colour multifunction systems.

The compact desktop model fits in any office.

## Built for versatility

The WorkCentre C2424 multifunction system gives you more options for all your business tasks.

- From cover weight stock to recycled paper, custom sizes to A4 and legal, you can reliably feed the widest range of media.
- Provides fast, versatile prints for everyday jobs. And for superb resolution when you really want to impress, there's 2400 FinePoint™ print mode. Your copy and print output will never look so good.

- 85,000 page duty cycle delivers the reliability and production capacity you need in a busy workgroup.

Go ahead, get creative. Print on business card stock, invitations, transparencies, labels and more. You can expect the same brilliant output no matter what the media.

## Scanning transforms the way you work

Use the power of scanning and your WorkCentre C2424 multifunction system to efficiently organise, edit and distribute information. It's as simple as making a copy.

- Scan documents straight to your PC. Edit them now or store them for access later.

- Scan documents to a public folder. This gets them off your desktop and makes them accessible to anyone.
- Scan documents to password protected mailboxes. This allows central storage but restricted access.

extra value

## Scanning tools

On top of our standard scanning functionality, we include a valuable scanning software bundle with the DX configuration.

- **ScanSoft® OmniPage® Pro 12.0 Office** – quickly converts paper documents into editable and searchable digital documents with accurate page layout and format.
- **ScanSoft® PaperPort® Pro 9.0 Office** – utilises a thumbnail-based Visual Desktop that allows you to instantly view and organise scanned paper, PDFs, TIFFS, MS Office documents and more.
- **Image Retriever** – automatically delivers scanned images back to your desktop or a network folder.

*Enjoy photo-quality resolution so vivid and sharp, you won't believe your eyes.*

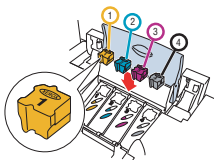

*Solid ink is incredibly environmentally friendly. It generates only 1/40th of the waste of a typical colour laser printer.*

## Elegantly simple design

**Users and system administrators have it made. This multifunction system is the world's easiest to install, manage and use – there's almost nothing to it.**

- Installation and network configuration, including network scanning, is easy – just four clicks and you're done.
- Compact, no mess, solid ink sticks can be dropped into their slots anytime. You can top up the ink levels and never have to worry about running out in the middle of a job.
- Network management made simple. CentreWare® IS embedded Web Server lets you manage, configure and monitor networked devices from anywhere.
- Automatic job monitoring helps you track your print job's progress, and an Internet support system enables you to get help quickly should you ever need it.

*As easy to load as a stapler – just open and drop in!*

*Keep it simple. Solid ink has one-third of the parts of lasers. That makes it more reliable and easy to use.*

# Print. Copy. Scan. Smile.

**Busy, busy, busy?**  
We thought so, so we offer extra trays for added capacity.
