

The professional laser fax with advanced communications capabilities

Key features at a glance:

- Laser fax
- Multifunctional
- Send scanned colour or black and white documents as e-mail
- SMS text messaging*
- Colour scanner
- Optional Laser Printer
- Digital copier

The FaxCentre 1012 is a high performance corporate laser fax. With its Internet capabilities, the FaxCentre 1012 can communicate with any Internet connected terminal in the world, enabling it to transmit colour documents and receive e-mails. It also has the option to share its multifunctional features with a PC (printing, colour or black and white scanning, fax sending/receiving) and send text messages to mobile phones.

Internet terminal

With its 56 kbps modem and "Scan to e-mail" function the FaxCentre 1012 can send your colour or black and white documents (in TIFF and JPEG format) to any recipient with an e-mail address. Low cost document sending via the Internet.

PC multifunction

With optional direct connect printing, the FaxCentre 1012 can be connected to a PC (Windows 95/98/NT/Me/2000/XP) via ECP. You can print your documents, manage the sending and receipt of faxes, or even scan and process your documents with Optical Character Recognition (OCR) software.

Black and white copier

The FaxCentre 1012 is a high speed (12 ppm), high resolution (600 x 600 dpi) digital copier with advanced copy functions such as multicopy (up to 99) and reduction and enlargement capabilities from 25 to 400%.

Black and white printer

The FaxCentre 1012 prints all your documents, letters and presentations with speed and accuracy via ECP.

Security

The FaxCentre 1012 has protected memory with unlimited time back-up, intelligent consumables and an address book card.

SMS terminal*

The FaxCentre 1012 can send text messages to mobile phones with minimum user effort:

Easy writing - complete QWERTY keyboard and two line control screen.
Easy sending - dedicated key, directory, repeat broadcasting, automatic sending procedures.

Ready for use - no need for a GSM subscription or Internet account, the cost of the messages is charged directly to your telephone bill.
