

Convenient, Fast and Secure Use of Xerox MFPs

Equitrac Embedded for Xerox EIP makes it convenient, easy and secure to print, copy, scan and fax from Xerox products.

Part of the Equitrac Professional® software solution, Equitrac Embedded for Xerox EIP takes full advantage of the Xerox Extensible Interface Platform (EIP). Providing full cost recovery and access control, this solution also allows users to release printed documents at the MFP of their choice. Equitrac Embedded for Xerox EIP provides access to award-winning print management and cost-control solutions through the Xerox MFP's touch screen control panel. So now you can enjoy simplified tracking of prints, copies, scans and faxes, with no terminals to purchase, install or maintain.

Benefits of Equitrac Professional Extended to Walk-Up Services

- Capture and recover the cost of every MFP activity.
- Increase user mobility, convenience and productivity.
- Print documents securely to networked Xerox WorkCentre MFPs.
- Manage total output volumes and eliminate waste.

Saving Time, Enhancing Security, Reducing Waste

Equitrac's Follow-You Printing® frees users to output documents at the MFP of their choice—across servers, departments and even geographic boundaries. Equitrac Professional protects confidential information by assuring jobs are printed only by the appropriate user when the user is physically at the MFP. This reduces the waste and expense of abandoned print jobs, while supporting your sustainability objectives.

Complete and Accurate Cost Recovery

With Equitrac Embedded for Xerox EIP, you can input billing information directly at the front panel while the Equitrac solution captures all MFP job attributes, simplifying and automating the application of variable rates based on document features. Paper size and use of color or black and white—for both copies and prints—can be detected on a page-by-page basis for accurate usage reporting and allocation to correct client/matter.

Strong Partnerships Developing Advanced Solutions

Equitrac Embedded for Xerox EIP represents the partnership of industry leaders working together to streamline your workflow and help you realize your full cost recovery potential. Seamlessly integrated with Xerox EIP, Equitrac Embedded for Xerox EIP makes the most of the user interface on the Xerox device to provide powerful and intuitive capabilities to end users. The Xerox multifunction product becomes the hub of an adaptive infrastructure for secure and mobile print release, accurate cost recovery, and broad-based device management throughout your organization. Extending the power of Equitrac Professional to Xerox MFPs, Equitrac Embedded software delivers advantages of convenience, productivity, and reduced waste.

Personal Favorites follow you from device to device and even to your desktop

Quickly scroll back in your personal history to find and reuse validation entries from your most recent jobs

Enter billing information right at the MFP

Easily search for billing codes

Equitrac Embedded solutions for Xerox EIP multifunction products in legal, architecture and engineering firms connect directly to the Equitrac services on your network. Login, billing, allocation and job release are all accessible through the front panel of the Xerox EIP-enabled systems. With no terminal required, the Equitrac Embedded solution reduces your equipment costs while improving your return on investment.

Advanced Features

Cost Recovery

- Fully integrated with Equitrac Professional 5
- Copy, scan and fax* tracking captures all document activity
- Eliminates unauthorized printing and the waste of uncollected print jobs

Ease of use

- Simple, familiar, touch screen on Xerox EIP-enabled MFP
- Single integrated user experience simplifies workflow, increases user satisfaction
- On-screen QWERTY soft keyboard
- Automatic email address retrieval for simple scanning

Security

- Follow-You Printing® for mobile and secure document release
- Documents output only when users are ready to pick them up from the MFP
- Network login or PIN authentication
- Secure Access card authentication with USB readers*

IT Simplification

- No terminals for IT to install or support
- No additional IP addresses or network drops
- Centralizes device management and control
- Reduces printer-related help desk calls

*Check selected device models for support of these capabilities
