*Printer version available

An office product to meet every need.

There's a job waiting to be done: A single page to be copied. A critical hundred-page report to be printed in full colour, then faxed, scanned and emailed to users around the world. Whatever your task, Xerox has the right office printer or multifunction system to help you do the best job, with more speed, reliability and value than you ever thought possible.

Extend the value of your multifunction system

In today's busy office, the multifunction printer is a must-have device. Yet multi-taskers want to do more than print, copy, scan, and fax. They're looking to save steps in every business process. Xerox's robust multifunction system platform – called Xerox Extensible Interface Platform® – makes it possible. Today, companies around the globe depend on Xerox multifunction systems to integrate with IT and automate thousands of business-critical processes.

- Maintain and manage your office technology
- Streamline and simplify the digital transformation and distribution of your hard copy documents
- Simplify document management and repurpose by providing full PDF workflow capabilities.
- Track and control your fleet of print, copy, fax and scan devices
- Extend your ability to capture and share knowledge on a global basis
- Automate your meter reads

Unrivalled service and support

We stand behind our products with a large network of exceptional customer support. Our service professionals employ the latest training in leading-edge technologies, and they're linked to the engineers who designed your product. We optimise our office paper and supplies to ensure peak performance from your equipment.

Document security ensures your peace of mind

We've created innovative new features to safeguard your sensitive data.

- Our exclusive Image Overwrite Security option removes all trace of files from your device's storage.
- Many of our networked products offer an optional card-based log-in to prevent unauthorised use.
- Secure print and fax features guarantee your information remains confidential.
- We offer the broadest array of products that have earned the NIAP Common Criteria Certification (the international standard for information security).

Designed to be kind to our planet

We conserve natural resources by designing products to minimise waste throughout their lifecycle, from manufacturing to retirement. They help maximise energy efficiency in your office; our line of fine office papers meets the highest standards of sustainability. And our Green World Alliance programme encourages recycling of Xerox-brand used supplies. For more information, please visit www.xerox.com/environment.html.

Adaptable to fit the way you work

Many of our multifunction systems incorporate EIP, so it's easy to customise them to fit your business requirements. We've partnered with industry-leading software companies to create integrated solutions that extend the capabilities of Xerox products and services. Over the past 30 years, this programme has grown to more than 200 partners worldwide and includes such technologies as the Xerox Mobile Print Solution. This offering makes mobile printing simpler and more convenient by empowering today's mobile professionals with the freedom to send print jobs from any email-enabled device, while keeping your business secure. Check www.xerox.com/eipinfo for the latest list of EIP compatible products.

Xerox Office Services

We offer a comprehensive set of business document services, powerful office technologies, processes and tools specifically designed for your business. We will assess your current document production processes and device fleet, develop strategies and supply plans to maximise efficiency and capabilities, then provide ongoing asset management and supply services. We'll work with you to enhance your document management to reduce your costs and improve business productivity.
