

Print, Copy and Scan on the Go With the Xerox® Workplace App

It's simple and convenient, offering more freedom with fewer limits.

Want more out of your printer?
All it takes is a tap.

Today, on the job means being on the go and adapting to the workplace, wherever you happen to be. The Workplace Mobile App makes it easy to keep up the pace, by putting the power of your multifunction printer (MFP) in the palm of your hand. Scan, copy or print from the convenience of your smartphone, giving you a personal remote control to your multifunction printer and avoiding the need to touch the user interface.

With an intuitive, easy-to-use interface, the Workplace Mobile App puts time-saving accessibility at your fingertips.

- Print documents directly from your mobile device
- Leverage your address book to route scans to colleagues or directly to your cloud repositories
- Initiate copies with our touchless multifunction printer workflows to take flexibility to the next level

With a simple range of pairing options, the Workplace Mobile App makes it easy to connect your iOS or Android device to your Xerox® Multifunction Printer*.

The Workplace Mobile App at a glance

CONNECT

Automatically discover your printer on the network, tap to connect using Near Field Communication (NFC) or connect in seconds with just a QR code**. Save the printer as a favourite to save time on future prints – no searching necessary.

PRINT

Share directly from the application you're using or open documents from the app to preview and print with ease. Use the camera function to take and print pictures. A wide range of print settings, including the number of copies, media size, simplex, duplex, colour, mono and more, meet every need.

SCAN

Make a contactless scan at the multifunction printer with remote control from your mobile device. Drop the page into the feeder, and use the contacts and stored cloud accounts on your mobile device to scan, digitise and route documents to their final destination in a snap.

COPY

Initiate copies right from your mobile device instead of the user panel for a completely touchless workflow.

*Supported devices only. Visit www.xerox.co.uk/en-gb/office/software-solutions/xerox-workplace-mobile-app.

**Scan a QR code using the Xerox® Quick Link App, a multifunction printer app available in the Xerox App Gallery. Visit <https://www.xerox.co.uk/office/latest/SO1FS-37E.pdf>.

XEROX® WORKPLACE MOBILE APP STANDARD FEATURES

Empower mobile users to get more done on the go with simplicity that streamlines modern workflows. It doesn’t matter if you have iOS or Android – it’s the same seamless, hassle-free experience.

- Adding or connecting to a printer is as simple as scanning the printer-specific QR code, typing in an IP address or tapping on NFC
- Print directly from other applications, including Dropbox, Google Drive and more
- Select print options such as 1-sided/ 2-sided, colour/black-and-white, stapled, paper size and page range
- Save preferred email recipients to avoid extra steps when scanning
- Secure connection provides protection and peace of mind

XEROX® WORKPLACE SOLUTIONS UPGRADED FEATURES

Take the benefits of the Xerox® Workplace Mobile App to the next level when used in conjunction with Xerox® Workplace Solutions. Stay connected to any device and over any network with cloud connectivity. And do it securely from anywhere with the ability to:

- Control user permissions with a user database or with company LDAP, Azure AD or Okta
- Print to Xerox® and non-Xerox Printers including HP, Ricoh, Epson, Canon and more
- Securely upload documents for release later at any licensed printer
- Free up IT resources with simplicity that allows users to get up and running in no time
- Print from any other local or internet-connected device (PC, Mac, Chromebook, as well as iOS and Android)
- Unlock the printer user panel with a tap of your mobile phone, ID badge and more
- Set user print rules and policies and track with full reporting and accounting
