Bring wireless printing to your business

Increase flexibility in your office

This compact, high-performance wireless network adapter allows any Ethernet-enabled Phaser® printer or multifunction printer to become an 802.11b/g wireless network device, giving you the freedom to position your printer anywhere you choose in your office (excludes Phaser 6110, Phaser 6110MFP, Phaser 6115MFP and WorkCentre® 3119).

Advanced security

With advanced security protocol 802.1x, you can be assured of a secure connection for your business, large or small.

Simple to set-up and operate

- Includes easy to use CentreWare® IS, embedded web server, for easy device set up and management on the network.
- Easily configured and managed from any desktop device using the product's web browser.

Full network functionality available through the wireless adapter:

- Bi-Direction network drivers
- Full CentreWare IS management facilities
- Automatic online support services – PhaserSMART
- Automatic meter readings
- Printing Scout
- Remote Diagnostics

Note: actual functionality defined by product capability

Service

The Wireless Network Adapter is fully supported by Xerox through:

- User guide and insert CD-Rom
- Online assistance
- Telephone support
- Exchange service.

Valid for duration of warranty period.
