

# Xerox® Workplace Cloud

Our easy-to-use, IT-friendly Xerox® Workplace Cloud frees you from security risks while offering convenience, usage insights and dashboard-based monitoring and control of your entire printer fleet.

## Simple Setup, Cloud Administration

Xerox® Workplace Cloud is easy to set up and use, so it's the ideal choice for businesses or organisations with limited access to IT or looking to consolidate IT resources. And because it's cloud based, it works across multiple networks, giving you complete control of every printer at every location.

## AUTHENTICATION, ACCESS CONTROL

Flexible authentication options to unlock your printer, securely release your pull print jobs and access your MFP Apps.

- Flexible card-based reader authentication option — compatible with a wide range of industry-standard secure readers and cards.

- Mobile authentication with NFC, QR code or mobile app-unlock code feature
- PIN-only, confirmation number, or user name and password authentication as an alternate login
- Integration with Microsoft® Active Directory and Azure® AD

## SINGLE SIGN ON (SSO)

Make use of our single sign on capability to access your SSO-enabled apps. Conveniently authenticate at the printer once and then securely access all your MFP SSO-enabled apps without having to remember long passwords or perform any additional, time-consuming login steps.

To ensure peace of mind, all credentials are kept safe using login tokens stored and retrieved using triple encryption within a tamper-proof software vault.

## ACCOUNTING AND REPORTING AND RULES

Administrators can closely monitor printing across the organisation with our consolidated fleet reporting and accounting capability. An at-a-glance dashboard provides rapid insights into print activity and status. The ability to see top users by departments or usage mode helps administrators take control of costs.

Use essential print rules to take control of costs and restrict access to devices/features at the user/group level.

## EASY MOBILE PRINTING

Xerox® Workplace Cloud makes mobile printing simple and seamless, even with complex network configurations. A truly flexible solution raises productivity for everyone.

- Select your office documents, photos, PDFs and more
- Find the closest printer and manage your print settings
- Select and preview your document
- Securely release your document to print

Print seamlessly from Microsoft® Windows® OS devices and Google® Chromebooks™, Mac® OS, Linux® and mobile app printing for iOS, Android and Windows Surface® tablets.

With a traditional pull/follow printing workflow, send jobs to a single queue for release and retrieve when ready.

# Xerox® Workplace Cloud

Boost productivity and control costs with an easy-to-use, cloud based print management and mobility solution.

Xerox® Workplace Cloud Features	Xerox® Device	Non-Xerox® Device
<b>Authentication</b>		
Card and Mobile (NFC) Authentication using industry-standard card reader with direct USB	Yes	Yes — Requires networked device
Network credentials, email and password or PIN	Yes	No
Unlock MFP with mobile device (no card reader)	Yes**	No
Single sign on to SSO-enabled apps (available in Xerox App Gallery)	Yes	No
<b>Desktop Printing</b>		
Traditional pull/follow printing workflow (job waits on cloud)	Yes	Yes*
Printer client pull/follow printing workflow (job waits on client until pulled to printer)	Yes	Yes
Direct printing between client and printer (using cloud for network as necessary)	Yes	Yes
<b>Mobile Printing (supports iOS and Android™)</b>		
Direct/native Microsoft® Office (PowerPoint®, Word, Excel®, Web pages, Adobe® PDF and Photos), Apache™ OpenOffice™ documents	Yes	Yes
Direct Print to printer email address/subject field or Xerox® Print Portal App	Yes	Yes
Pull Print submission via email or Xerox® Print Portal upload	Yes	Yes
Apple® AirPrint® support	Yes	Yes
Copies, two-sided, stapling, preview and more	Yes	Yes
GPS locator, find printer locations	Yes	Yes
Select release using QR code	Yes	Yes
Support for cellular and wireless client	Yes	Yes
<b>Chromebook™ Printing</b>		
Direct Print from Chrome OS™ and Chrome™ browser	Yes	Yes
Pull/follow Print from Chrome OS and Chrome browser	Yes	Yes*
<b>Embedded Release App</b>		
View, edit or delete jobs via MFP app	Yes	No
View, edit or delete jobs via Xerox® Print Portal App	Yes	Yes
Auto population of email address for logged-in user	Yes	No
<b>Reporting and Accounting</b>		
Enhanced print accounting to deliver user, departmental and printer tracking with graphical reports	Yes	Yes
Tracking for all services (copy, fax, scan, etc.)	Yes	No
<b>Administration/Configuration</b>		
Limit user access to corporate printers or add access to a public printing network outside of your account/deployment	Yes	Yes
Set default print policies	Yes	Yes
Set MFP user access to services	Yes	No
Connection to LDAP/AD (Cloud Azure® AD)	Yes	Yes
<b>Essential Print Rules (by user/group)</b>		
Time of day/day of week	Yes	Yes
Colour/mono, simplex/duplex	Yes	Yes
Printer specific access	Yes	Yes

\*Via Mobile Xerox® Print Portal or swipe and release all using a networked device

\*\*Compatible with Xerox® AltaLink® and Xerox® VersaLink® platforms (or products)
